I would be willing to book a longer world cruise if it allowed me to visit more ports and countries

I would be more likely to book a world cruise that visited more smaller, unique ports

I would be more likely to book a world cruise that went to countries I am unable to go on other cruises

I would be more likely to book a world cruise that allowed me time to properly explore UNESCO sights

I would be more likely to book a world cruise that went to the largest number of countries

I would be more likely to book a world cruise that had more overnight stays in major world cities
